**Congratulations on your graduation from physical therapy!
Thank you for all your hard work, attentive listening, and dedication**

We love hearing success stories from our patients, past and present

What are a few things you learned about physical therapy, your body, or your condition from coming to Capital Area Physical Therapy (how did we educate you on: pain, postures, positioning, body mechanics, how to protect yourself, etc)?

I learned about my core muscles and how to make them stronger.

Think back to when you first started coming. What are a few things you can do now that you were unable to do before working with us?

I am more aware of my movements and how to do things right

Can you think of any other comments or advice you would give to future patients of Capital Area Physical Therapy and Wellness?

I felt like Andrew treated my condition with knowledge about what I should do - not just hot packs and a sheet of exercises to do. I was very impressed with how personal each visit was. Thanks so much to all the staff who were very friendly -
